

Dear SelectAccount Account Holder:

Your SelectAccount personal spending account is a convenient way to pay for eligible health care expenses and to save money on taxes. SelectAccount offers several features and services that make your account easy to use. One such feature is electronic reimbursement, also known as crossover. We have automatically enrolled all employees in the crossover feature to make your health plan more affordable.

How crossover works:

Crossover allows your health plan to automatically submit claims to SelectAccount for reimbursement. This virtually eliminates paperwork for you! Here's how it works:

- You go to the doctor
- Your doctor submits a claim to your health plan for the care you received
- Your health plan processes the claim and submits your portion of the expense to SelectAccount
- SelectAccount processes the claim against your account(s) and reimburses you by check or automatic deposit into a checking or savings account of your choice

An Explanation of Payment (EOP) is made available to you whenever you make a withdrawal from your HRA. Your EOP is not a bill, but rather an explanation of what was paid from your HRA. An EOP can be accessed at any time, directly from your Online Member Service Center on SelectAccount.com

Crossover should not be selected in the following circumstances:

- If you are enrolled in a Kaiser Permanente or UMR medical option
- If you are enrolled in a health savings account (HSA) and have a dependent covered by your health plan who is not a tax dependent
- If you or your dependents have another medical coverage (private, Medicare, or Medicaid)
- If you want to control when funds are used
- If you have a debit card for the account

If you decide you don't want to use the crossover feature or if you don't qualify for crossover, you must cancel your crossover enrollment by visiting SelectAccount online at SelectAccount.com and clicking on the **sign-in / register button** at the top of the page. Once registered, you can manage your account online, including opting out of crossover.
